Partnering with Districts to  
Support Students, Staff & Success

# Why Partner with Triumph Center?

With decades of hands-on consulting experience and deep knowledge of research-based best practices, our team offers practical, impactful strategies that improve outcomes for both students and districts.

Our consultants collaborate with administrators and special education teams to support the implementation of district-wide initiatives. We provide actionable strategies to meet the needs of all learners and ensure compliance with special education regulations.

## Specialized Services

### Evaluations

Our highly skilled evaluators can conduct on-site psychological and neuropsychological evaluations, collaborate with educators and specialists, and address unresolved questions from prior evaluations.

### School-Based Mental Health Services

Our clinicians are available to work directly with students and within programs to provide counseling (individual and group), embedded therapeutic support, and consultation. Available to cover long-term leaves by staff.

### Extended School Year Partnership

Our Camp Triumph & Triumph Transitions summer programs address academic, social, emotional, & behavioral IEP goals. Partner with us to prevent regression over the summer, for student ages 6-21.

### Our Collaborative Process

- Regular meetings with staff
- One-on-one consultation with staff
- Direct student interaction where needed
- Regular progress check-ins and strategy adjustments

## Consultation & Training

### ✓ Program Development & Evaluation

Support in evaluating, developing, and enhancing special education programs to align with district initiatives and support diverse student profiles and needs.

### ✓ Professional Development & Training

Tailored workshops and ongoing training for general & special education staff. Example topics: MTSS, SEL, trauma-informed practices, & more. Using evidenced-based strategies to be implemented immediately by staff.

### ✓ Program & Case-Specific Consultation

Ongoing guidance that is tailored to support the needs of special education programs and individual student profiles. Our consultants often provide consultation within therapeutic programs and programs that support students with autism and complex neurodevelopmental needs.
